press release:

"... a real discovery ... **absolutely convincing interpretation** of the term "World Music" ... Marc Miethe plays (the Didge) with **intensity and wealth of invention which is hard to match** ... far and away from Folk Music and you know that the association with "Bitches Brew" by Miles Davis is absolutely right when drums, percussion and samples join in: this is **Ethno-Jazz for the 21st century** ... "Didges Brew" create a **truly organic fusion** of different music styles and the simple wooden tube is always leading." (*D. Neueste Nachrichten, 2003*)

„...**a real bomb!**...“ (*sonomag.de, 2004*) "...**brilliant!**..." (*Berliner Morgenpost, 2005*)
