Orientation - Oriental Soul (Turkey, Iran, Berlin)

Orientation blends soulful funky beats together with desperately longing “arabesque” music (the Turkish definition of “the Blues”). Orientation creates melodies with a reminiscence to Eastern Europe, the Middle East and Turkey, interpreting it with new urban spirit. Orientation calls it “Oriental Soul”.

On speciality of Orientation is he Turkish wedding Rhythm, a 9/8, which sounds new and maybe even “odd” for the Western ear. But Orientation manages to create Reggae and funky vibes in a 9/8 that reinvent those styles and gives them a completely fresh flavour!

Orientation has earned its reputation and fame in countless concerts all over Europe. They have toured with Tarkan and the new Superstar Muhabbet. They represented Germany and their home town Berlin at the EXPO 2000 and in Hong Kong. In 2009 Orientation won the famous “Creole” award for Berlin and became finalist for Germany.

Orientation has contributed their music for various Soundtracks (e.g. Fatih Akin) and both feature films and documentaries as well as TV-sequels. Orientation has been featured on numerous compilations, such as “Oriental Garden”, „Obsession Lounge“, „Play Up“, „Tokyo Lounge“, „Klassik Lounge Night Flight“, “From East to West”, just to name a few.

Orientation live is fun and a playful happiness. It is new and surprising arrangements. Orientation live is dance and joy. Orientation does not know nationalities and physical borders. They simply play great music. Voilá!

The new Album: I show you crazy

Bekir Karaoglan and Andreas Advocado, operating the music lab ORIENTATION (Orient kisses Occident), show with "I show you crazy" that they do not fit into any categories or any clichés. Their last album with Blue Flame Records “9 in Istanbul, 8 in Berlin” (and "Orientation Biz" released by Akuma) featured Bekir as a singer with straight ahead funky Pop songs, but this time they are presenting 12 purely instrumental milestones proving that ORIENTATION are masters of Art as musicians, Sound Designers, composers and producers. „I show you crazy“ presents a wide range from funky dance tracks to plain Electro and desperate ballads.

"I show you crazy" was planned from the very beginning as a concept album. The tracks were not done one after the other but created simultaneously in three different phases in three different seasons of the year 2009. The first sketches of composition were done in late summer, with temperatures above 30 degrees Celsius and long nights in outdoor bars of Neu Kölln. In autumn Bekir and Advocado designed the sound of the album and in winter 2009/2010, covered in snow and temperatures around -15 degrees Celsius the final arrangements and mixdowns were made.
